Carpenter Model 71 and 71SB Wire Strippers

Used In These
Machines

Carpenter
Model 71
Model 71SB

The Carpenter Model 70 and 71SB Machines use a single set of "Universal" Stripping Blades to remove the insulation from the end of a wire. Mechtrix blades for the Carpenter Model 70 and 71SB Machines are made to precision standards from a specially selected tool steel to insure optimum performance and blade life and are produced using state-of-the-art manufacturing techniques. The state-of-the-art manufacturing techniques are combined with patented Mechtrix technology to produce perfect stripping form radii.

In addition to the "Universal" Stripping Blades, Mechtrix also offers both our patented M-Series and Full Radius stripping form geometries for processing difficult insulations in the Carpenter Model 70 and 71SB Machines. Please contact Mechtrix for assistance in selecting the appropriate style and size blade for your particular application.

Carpenter Model 71 and 71SB Stripping Blades

Mechtrix Description	Mechtrix Part Number	Blade Form Diameter		OEM Part Number
		(in)	(mm)
