Carpenter Model 77E Wire Strippers

Used In These
Machines

Carpenter
Model 77E

The Carpenter Model 77E Machines use a single set of "Universal" Stripping Blades to remove the insulation from the end of a wire. Mechtrix blades for the Carpenter Model 77E Machines are made to precision standards from a specially selected tool steel to insure optimum performance and blade life and are produced using state-of-the-art manufacturing techniques. The state-of-the-art manufacturing techniques are combined with patented Mechtrix technology to produce perfect stripping form radii.

In addition to the "Universal" Stripping Blades, Mechtrix also offers die-type stripping form geometries for processing difficult insulations in the Carpenter Model 77E Machines. Please contact Mechtrix for assistance in selecting the appropriate style and size blade for your particular application.

Carpenter Model 77E Stripping Blades
