## CMS-801 Mid Stripping Unit

Used In These  
Machines

Kodera  
CMS-801

The Kodera CMS-801 Mid Stripping Unit is a rotary stripping attachment that is used in conjunction with a Kodera Casting Series machines to produce center strips along the length of a wire. Mechtrix blades for the CMS-801 Machines are made to precision standards from a specially selected tungsten carbide to insure optimum performance and blade life. Please contact Mechtrix for assistance in selecting the appropriate blade for your particular application.
