Schleuniger MegaStrip 9650

Used In These Machines

The Schleuniger MegaStrip 9650 Machines can use one or two sets of stripping blades to remove the insulation from the end of a wire. Mechtrix blades for the Schleuniger MegaStrip 9650 are made to precision standards from specially selected tool steel to insure optimum performance and blade life.

Schleuniger MegaStrip 9650

In addition to the "Universal" Stripping Blades, Mechtrix also offers both our patented M-Series and Full Radius stripping form geometries for processing difficult insulations in the MegaStrip 9650. Please contact Mechtrix for assistance
