Schleuniger StripCrimp 750 Stripper/Crimper Machines

Used In These Machines

Schleuniger StripCrimp 750

The Schleuniger StripCrimp 750 Machines use a single set of "Universal" Stripping Blades to remove the insulation from the end of a wire. Mechtrix blades for the StripCrimp 750 Series Machines are made to precision standards from a specially selected tool steel to insure optimum performance and blade life and are produced using state-of-the-art manufacturing techniques.

In addition to the "Universal" Stripping Blades, Mechtrix also offers both our patented M-Series and Full Radius stripping form geometries for processing difficult insulations in the StripCrimp 750 Machines. Please contact Mechtrix for assistance in selecting the appropriate style and size blade for your particular application.
