Schleuniger UniStrip 2050

Used In These
Machines

Schleuniger
Unistrip 2050

The Schleuniger UniStrip 2050 Machine uses a set of (2) two “Die-type” Stripping Blades to remove the insulation from the end of a wire or cable. Each blade has four unique blade form diameters. Mechtrix blades for the UniStrip 2050 are made to precision standards from specially selected tool steel to insure optimum performance and blade life.

Custom blades for the UniStrip 2050 are also available in additional sizes and geometries for processing difficult or non-round cables or wires. Please contact Mechtrix with your specific wire stripping requirements.

Schleuniger UniStrip 2050 Blades

Mechtrix Description	Mechtrix Part Number	Blade Form Diameter		OEM Part Number
		(in)	(mm)	
Schleuniger UniStrip 2050 (4-7mm)Strip Blade (Blade Forms Ø4mm, Ø5mm, Ø6mm, Ø7mm)	37051	0.157 - 0.276	4.0 - 7.0	2480-95038
