

Komax Tooling

Komax bt 700 Stripping Blades

Used In These
Machines

Komax
bt 700

The Komax bt 700 uses a single set of blades to remove the insulation from the end of a wire. Mechtrix blades for the Komax bt 700 Machines are made to precision standards from a specially selected tool steel to insure optimum performance and blade life. State-of-the-art manufacturing techniques are combined with Mechtrix patented technology to create perfect stripping form radii which produce the highest quality cutting tool possible.

In addition to the OEM style V-Blades, Mechtrix also offers the Komax style die-blades for the Komax bt 700 Machines. Please contact Mechtrix for assistance in selecting the appropriate style and size blade for your particular application.
